January 4, 2008

Dear SKA Member:

Our Association had a productive year under the leadership of our President, Lourdes Ramirez. Because of her vigilance and extensive research of county records and building codes, we were able to prevail in a number of legal issues against developers and the county relating to density issues and the misreading of county building codes by county staff. Needless to say, SKA could not have prevailed in these matters without your membership dues and the many additional contributions that were made to our legal fund. These donations assisted in defraying the \$75,000 cost of our legal action against the county in 2007.

Because of SKA's vigilance and financial resources, we were able to protect our island from over development and the building of unsuitable housing on inadequate lot sizes. No other organization in Sarasota County has the means to respond to developers and the county's legal team to protect our key. These issues and many others illuminated in our brochure, continue to prove that we are your voice on the important issues to Siesta Key property owners. Our volunteer board thanks you for your past support. Let us know by your continued membership and additional legal donations that you trust us to continue representing you for a better Siesta Key.

Please join us and share your thoughts and concerns at our monthly meetings held on the first Thursday of each month at 4:30PM, Room F, St. Boniface Church, Midnight Pass Road, Siesta Key.

Sincerely

J. Deet Jonker
